116 Church Road

Gorleston-on-Sea, Norfolk, NR31 6LW

7 April 2015.

For the attention of Mr. John Clare

Dear Sirs

Shelters on Lower Promenade, Gorleston-on-Sea

On behalf of the Chairman and members of Gorleston-on-Sea Heritage Group, I would like to express our appreciation of the work carried out on the rebuilding of the shelters on the Lower Promenade. These have been rebuilt to an elegant and timeless design which fit well into the green clifftop background. The materials appear to be of high quality, and the overall appearance of the shelters is attractive and suitable to the environment. These shelters are very much appreciated by local people and visitors, providing as they do a pleasant place to sit and view the beautiful sea views, and enjoy the tranquil atmosphere of this delightful seafront.

The present shelters have replaced the original Edwardian ones which were built when the seaside amenities were being developed, and were of an ornate design which was typical of the era in which they were created. In rebuilding to a modern, more streamlined design the tradition of the seaside sheltered seating has been upheld, but with a design that is more appropriate to the 21st century.

These shelters will be used for many years to come, and will provide an attractive and useful amenity to residents and visitors alike to our popular and much loved seaside promenade.

Yours faithfully

(Doreen R. Feuell, Co-ordinator, Gorleston-on-Sea Heritage Group)
